RE: Letter of Recommendation and Appreciation

Essity Ltd. (Kamenogorsk branch) was pleased to have ROSECO-STROYPROEKT as a subcontractor team for:

- repair and construction works (strengthening of concrete column at the finished goods warehouse);
- cooling tower surveying on the roof-top of the workshop
- reinforced concrete column construction surveying
- reinforced concrete basin structure surveying

At the moment ROSECO-STROYPROEKT is continuing to work on the project: "Modernization of existing smoke removal system with roof mounted lights and fans" at Kamenogorsk branch of Essity Ltd.

ROSECO-STROYPROEKT team was able to guide us through the process, making it as seamless as possible. They work with us to understand our needs and formulate a plan with a clear timelines.

It helped to solve problems and find optimal solutions for project.

If we have any questions or concerns, ROSECO-STROYPROEKT specialists are responsive and always making sure to address them quickly and thoroughly.

We believe this company to be a very capable (sub) contractor, and would have absolutely no reservation in recommendation them for future work up to, and above these projects value.
