To Whom It May Concern,

Over the past 6 years ROSECO-STRYPROEKT has successfully completed multiple projects for us, including:

- Design of external water supply and sewage systems reconstruction, incl. wastewater treatment plant.
- Industrial building structural engineering survey
- Conceptual solutions design – industrial space allocation for workstations and etc.

Currently we have a few ongoing projects carrying out by ROSECO-STROYPROEKT.

ROSECO-STROYPROEKT team had shown nothing but high degree of professionalism and attention to detail. If problems arose, they always offered practical solutions to resolve it.

We will recommend and look forward to working with ROSECO-STROYPROEKT on future projects.

We hope that you will give them your fullest consideration for your project.

Chief power engineer

M.V. Kolosov
